PRELIMINARY LIST OF ACCEPTED SYMPOSIAS (ORAL PRESENTATIONS)

Mentioned by session number + title, and abstract number + title.

#2 Cognitive and functional outcomes in children of parents with severe mental illness across development

Abstracts:

- #43 Systematic Review: Functional Outcome and Quality of Life in Offspring of Parents with Bipolar Disorder – Fleur Helmink
- #59 Development of Social and Neurocognitive Functioning in preadolescent children at familial high risk of schizophrenia or bipolar disorder: The Danish High Risk and Resilience Study – VIA 11 – Nicoline Hemager
- #63 Genetic and structural brain correlates of cognitive subtypes across youth at family risk for schizophrenia and bipolar disorder – Isabel Valli
- #105 Psychosocial functioning in offspring of parents with bipolar and unipolar mood disorders assessed across 15 years of follow-up – Caroline Vandeleur

#3 Pathways from early trauma to mental health outcomes: A Lifespan perspective

Abstracts:

- #129 Can childhood maltreatment cause ADHD? A systematic review of prospective longitudinal studies using the Bradford-Hill criteria. - Evi Bali
- #133 The 'Double Jeopardy Model': Can we improve prediction of children and young people at clinical-high-risk of poor mental health outcomes - Ruchika Gajwani
- #80 Pathways from childhood maltreatment to adult mental health - Jala Rizeq
- #543 The expected and the unexpected in recovery and development after abuse and neglect: The role of early foster carer commitment on young children’s symptoms of attachment disorders and mental health problems over time - Fiona Turner

#4 Adolescents, substance use disorders and psychiatry: New developments in treatment and research.

Abstracts:

- #57 The added value of systematic client feedback in youth addiction treatment and mental health treatment: A controlled study - Patty van Benthem
- #104 Treatment of adolescents with concurrent substance use disorder and attention-deficit/hyperactivity disorder: Systematic review and international consensus paper - Vincent Hendriks
- #56 The course of addiction and comorbid mental health problems in youth entering addiction treatment: The Youth in Transition study - Christina Moska

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
#5 Transitional age youth mental health: how to improve the continuity of psychiatric care at the CAMHS-AMHS interface?

Abstracts:

- #212 Trajectories of Psychiatric Care in an Outpatient Program Designed for Transitional Age Youth in French-speaking Belgium - Simone Marchini
- #354 CURRENT RECOMMENDATIONS REGARDING TRANSITION FROM CHILD AND ADOLESCENT MENTAL HEALTH SERVICES (CAMHS) TO ADULT MENTAL HEALTH SERVICES (AMHS) - Joana Reis
- #595 From tracking transitions to managing transitional care: lessons from TRACK and MILESTONE - Swaran Singh
- #208 The benefits and challenges of involving young people with lived experience in large scale international research in mental health - Cathy Street

#6 Interventions for children of parents with a mental illness

Abstracts:

- #216 Children of Parents with a Mental Illness At Risk Evaluation – The COMPARE Study - Hanna Christiansen
- #75 Intervention for mood disorder symptoms in children of parents with psychiatric disorders - The MARIO intervention study - Melany Horsfall
- #130 SAFIR FAMILY TALK: an ongoing randomized controlled trial investigating a selective primary preventive intervention vs. service as usual for children of parents with mental illness - Anne Ranning

#7 Intergenerational transmission of psychopathology; results from a cross-diagnostic approach

Abstracts:

- #220 Early psychopathological manifestations in the offspring of parents with bipolar disorder - Michal Goetz
- #82 Risk factors of mood disorders and predictors of the conversion from major depressive disorder to bipolar disorders in a prospective high risk cohort study - Martin Preisig
- #84 Brain structure in those at familial high risk for schizophrenia or bipolar disorder: an ENIGMA-Relatives study - Neeltje van Haren
- #71 The Mood and Resilience in Offspring study – understanding, detecting and preventing mood symptoms in children at increased risk for mood disorders - Annabel Vreeker
#9 Mentalizing Externalizing disorders: from psychological processes to focused interventions - MBT group

Abstracts:

- #592 Mentalization-based treatment for adolescents with Conduct Disorder (MBT-CD): a feasibility study - Sophie Hauschild
- #591 Change of mentalization in relation with specific interventions within mentalization-based psychotherapy of adolescents with conduct disorder – a comparative case study - Lea Kasper
- #83 Reflective functioning and empathy: associations with externalizing behaviors in typical developing and antisocial adolescents - Larisa Morosan
- #100 Emotion Recognition and Mentalizing in adolescents with ADHD. - Elena Poznyak

#11 ADHD und externalizing disorders in family context – exploring the role of parenting stress and parent child relationship

Abstracts:

- #109 Parental hair cortisol concentration and child’s ADHD symptomatology between preschool- and school age - Alisa Susann Cosan
- #101 Maternal adverse childhood experiences and mother-child interaction - Eva Möhler
- #126 Role of parental positive reinforcement and expressed emotion in developing attention deficit hyperactivity disorder, oppositional, callous unemotional symptoms, and executive functions - Ursula Pauli-Pott

#12 The role of nutrition and gut microbiota in mental health

Abstracts:

- #97 Probiotics for the treatment of impulsivity: the PROBIA study - Gara Arteaga-Henríquez
- #94 Short-term clinical effects of an elimination diet and healthy diet in children with ADHD: a randomized controlled trial - Annick Huberts-Bosch
- #95 A longitudinal study of the gut microbiota during the first three years of life: links with executive functions at age three - Yvonne Willemsen
- #76 Gastrointestinal symptoms in autistic adults: the physique or the psyche? - Novel insights into determinants from a large Dutch population sample - Eva Warreman
#13 Intergenerational Transmission of Traumatic Stress and Attachment-Related Risk Prenatally and Postnatally: Mechanisms and Implications for Intervention

Abstracts:

- #96 Effects of maternal trauma and associated psychopathology on atypical maternal behavior and infant social withdrawal six months postpartum - Daniel S. Schechter
- #533 Longitudinal perspectives focused on narrativity from infancy to toddlerhood of children of borderline mothers. What can research teach us on early mother-baby clinical therapeutic settings? - Genet Marie-Camille
- #140 Accumulated risk factors of maternal violence related PTSD and related concepts associate in dimensional way to child pathology and other outcome risks. - Dominik Moser
- #77 The role of the HPA axis in predicting associations between maternal prenatal stress and child outcomes - Naomi Downes

#14 Psychopathology in children with rare monogenetic syndromes

Abstracts:

- #264 Internalizing problems in children with Tuberous Sclerosis Complex (TSC) - Lotte Feith
- #361 Child characteristics associated with parental stress and child/parental quality of life in Angelman syndrome - Doesjka Hagenaar
- #468 Autism symptoms in children and young adults with Fragile X Syndrome, Angelman Syndrome, Tuberous Sclerosis Complex and Neurofibromatosis Type 1: a cross-syndrome comparison - Kyra Lubbers
- #263 The prevalence and combined measurement prediction of ASD in children with tuberous sclerosis complex (TSC) - Chantal Straver

#17 Early detection of Autism spectrum disorders in babies born after a threatened preterm labor. The Peristress Project

Abstracts:

- #574 Early detection of Autism spectrum disorders in babies born after a threatened preterm labor. The Peristress Project - Laura Pina-Camacho
- #576 Early detection of Autism spectrum disorders in extremely preterm newborns: a two year follow-up study. The PremTEA Project - Laura Pina-Camacho
- #577 Distinct neurodevelopmental trajectories in very preterm children up to school age. The ePrime Study - Laura Pina-Camacho
#18 New developments in the assessment and treatment of young people with a clinical high risk state of psychosis

Abstracts:

- #118 An ecological momentary assessment study of age effects on perceptive and non-perceptive clinical high-risk symptoms of psychosis - Chantal Michel
- #119 Clinical high-risk criteria of psychosis in 8- to 17-year-old community subjects and inpatients not clinically suspected to develop psychosis - Frauke Schultze-Lutter
- #146 Treatment approach "Robin": standardized manual and smartphone app for adolescents at clinically high risk for developing a psychotic disorder - Nina Traber-Walker

#19 Attachment and trauma: The effects of early intervention in child and adolescent psychiatry

Abstracts:

- #124 Mothers’ and children’s perspectives on children’s threat experience and trauma symptoms - Silvia Exenberger
- #127 Non-suicidal self-injury and attachment trauma in adolescents with psychiatric disorders: A treatment approach - Martin Fuchs
- #120 The importance of unresolved attachment in adolescents with psychiatric disorders and its implications for treatment - Manuela Gander
- #160 Attachment patterns and attachment-based affect regulation in mothers of a psychiatric parent-child ward - Ann-Christin Jahnke-Majorkovits

#20 Building bridges: the epidemiology of eating disorder symptomatology in childhood and its neurobiological correlates.

Abstracts:

- #466 The longitudinal relationship between set-shifting at four years of age and eating disorder related features at nine years of age in the general pediatric population - Cathelijne Steegers
- #447 Unravelling the neurobiology of anorexia nervosa: the predictive value of neuroimaging measures on the differential course of anorexia nervosa and identifying the underlying brain networks - Katrien Bracké
- #524 The association between restrictive eating disorder features and brain morphology in the general pediatric population - Marlies Deen
- #159 Characterising Avoidant Restrictive Food Intake Disorder in Children: a Population-Based Approach - Michelle Sader
#21 New Research Findings with Clinical Implications from the Amsterdam Transgender Youth Cohort

Abstracts:

- #593 Mental Health Evaluation of Early Medical Treatment for Gender Dysphoria in Adolescence: a Long Term Follow-up Study into Adulthood - Marijn Arnoldussen
- #276 Evaluation of Early Medical Treatment for Gender Dysphoria in Adolescence: a Long Term Follow-up Study into Adulthood - Frédérique de Rooy
- #281 Decision Making Capacity in Transgender Adolescents - Annelou L.C. de Vries
- #215 On the Intersection of Autism and Transgender Identities: A Long-Term Follow-up of Autistic Transgender Children and Adolescents into Young Adulthood - Anna van der Miesen

#22 International networks in CAP training: I get by with a little help from my friends

Abstracts:

- #139 An international community of practice for CAP training – a Delphi study - Peter Deschamps
- #158 International examination and assessment for CAP trainees: a bumpy road uphill - Krisztina Kapornai
- #345 An introductory overview of the history and present international training activities in CAP - Carmen Schroder
- #228 The UEMS-CAP Curriculum Framework: something old, something new, something for you - Thorsten Schumann

#23 Child psychiatry and somatic comorbidity

Abstracts:

- #179 Quality of life post pediatric intensive care admission - Malaika Embrechts
- #147 Dawning of Delirium at the Neonatal Intensive Care Unit (NICU) - Husam Salamah
- #148 Paediatric mental disorders: the unity of body and mind - Marian Staal
- #166 Mental health in children and their caregivers: is there a need for family centered care? - Suzanne van Bronswijk
#24 Tracing the origins from synapse to EEG in monogenetic neurodevelopmental disorders: the brainmodel perspective.

Abstracts:

- #377 Identification and validation of EEG biomarkers in the Subject-Specific Bumetanide Treatment of Neurodevelopmental Disorders using The Neurophysiological Biomarker Toolbox - Shilpa Anand
- #385 EEG-based Predictions of Repetitive Behavioral Improvement in a Randomized Controlled Trial “Bumetanide in Autism Spectrum Disorder” - Gianina Cristian
- #537 Bumetanide as a mechanism-based treatment for neurodevelopmental disorders - Lisa Geertjens
- #493 Human neurons in a dish: Cellular phenotyping of patients with neurodevelopmental disorders - Maaike van Boven

#25 The Two-Way Road - Transactional Processes of Parenting and Child Mental Health Outcomes

Abstracts:

- #157 The impact of COVID-19 on adolescents’ daily lives – and the role of the parents - Robin Achterhof
- #149 Unravelling bidirectional associations between harsh parental discipline and offspring emotional and behavioural problems: Triangulating findings across three longitudinal models - Marie-Louise Kullberg
- #189 An exploration of intergenerational transmission of parenting and attachment related processes – a three generation study in a high risk sample - Esther Mesman
- #198 “Covid-19 is dangerous”: The Role of Parental Verbal Threat Information on Children’s Fear of Covid-19 - Cosima Nimphy
- #341 The moderating effect of mind-mindedness on parenting skills in Parent-Child Interaction Therapy - Merlijn Meynen

#27 MBT Group: Working with Parents from a Mentalization Based Approach

Abstracts:

- #156 Working with parents alongside mentalization based treatment with children, with a special focus on working with traumatized parents. - Nicole Muller
- #151 Relational Savoring: A Positive Psychology Intervention Targeting the Enhancement of Mentalizing - Lyric Russo
- #152 The Mediational Intervention for Sensitizing Caregivers: Evidence from South Africa and mothers with Borderline Personality Disorder - Carla Sharp
- #178 Perspectives on the body in mentalizationoriented Psychotherapy - Maria Teresa Diez Grieser
#28 Adolescent Suicidality in Different Psychiatric Contexts: Overview and Prevention

Abstracts:

- #161 Prevalence and predictors of self-harm and suicidality in adolescents hospitalized in a mental health inpatient unit - Marco Armando
- #202 Investigating real-time social interactive pathways to suicidal thoughts and behaviours: The Social Connections of yoUth in disTress (SCOUT) Project - Olivia Kirtley
- #339 Suicidal risk and the quality of sleep in Autism Spectrum Disorder - Luigi Mazzone
- #169 PROSPECT: Predicting Outcome and Suicidality during and Post-hospitalization: an EMA study in a Clinical unit for Teenagers - Maude Schneider
- #341 The moderating effect of mind-mindedness on parenting skills in Parent-Child Interaction Therapy - Merlijn Meynen

#31 Unpicking the Overlap between Autism and Eating Disorders: Developmental Pathways in Childhood and Adolescence

Abstracts:

- #590 Associations between childhood autistic traits and adolescent eating disorder behaviors are mediated by fussy eating - Virginia Carter Leno
- #422 The association of autism spectrum disorder with clinical features in anorexia nervosa: a large-scale study using phenotypic and genetic data - Lisa Dinkler
- #594 Childhood eating disorders and autism spectrum disorder in UK primary care electronic health records: comorbidity and longitudinal outcomes - Francesca Solmi
- #608 Links between autism symptoms and problematic eating across childhood - Pauline Jansen

#33 Innovative strategies to access mental health care for youth

Abstracts:

- #167 Prevention after traumatic exposition in schools: clinical perspectives of intervention - Guillemette Bouard
- #295 Geneva Model: first line mental health care for adolescents - Marían Garcia Iglesias
- #328 Writing your way out of loneliness - Claire Prével
- #351 Youth suicide prevention on YouTube - Adriana Radulescu
#34 Early detection of Personality Disorders and Personality Difficulties by assessing impairments in Personality functioning (Criterion A) in self and informant report

Abstracts:

- #407 Levels of Personality functioning in self-report and informant report (LoPF-Q 6-18 Parent) in school and clinic samples: Differences between 6-12 and 13-18 year olds in impairment levels and in relation to categorical personality disorder criteria and in different diagnostic groups - Marc Birkholzer
- #528 Personality functioning assessed by therapist report (LoPF-Q Therap) compared to self-report and parent-report as outcome variable in a pre-post therapy setting (START-Kids) - Andrea Dixius
- #446 Personality structure of children and adolescents assessed with age-specific questionnaires for the OPD-CA2 concept: Comparison of self and parent report and relation to psychopathology in clinic and school populations - Lea Sarrar
- #225 Self-reported personality functioning in Russian school and clinic samples (LoPF-Q 12-18 Russian) - Natalia Zvereva

#35 Child and adolescent mental health care provision in Europe during the COVID-19 pandemic

Abstracts:

- #249 Child and adolescent mental health care in Greece - Konstantinos Kotsis
- #601 Symp #35: Child psychiatry as a social medical profession: developments in the Netherlands - Robert Vermeiren
- #606 Need adapted development of care-systems for children and adolescent psychiatric disorders – results of a health care research project in Germany - Michael Köllch
- #607 Provision of care in Child and adolescent psychiatry in Slovenia pre, during and a look into the expected future after the COVID-19 pandemic - Maja Drobnič Radobuljac

#36 Lifestyle intervention in child psychiatry

Abstracts:

- #183 Novel insights into somatic comorbidities in children and adolescents across psychiatric diagnoses - Jet Muskens
- #203 The Movementss study A randomized controlled trail comparing the short and long term effects of a lifestyle intervention in children with a psychiatric disorder. Rationale, study design and methods. - Emilie van Tetering
#37 The use of eHealth to decrease mental health problems and promote well-being

**Abstracts:**

- #191 The Grow It! App effect: Longitudinal Changes in Adolescent Well-being During the COVID-19 Pandemic - Evelien Dietvorst
- #195 Personalised app-based relapse prevention of depressive-, and anxiety disorders in remitted adolescents and young adults: a protocol of the StayFine RCT - Yvonne Stikkelbroek
- #200 An online psychological intervention for adolescents with a visible difference: Acceptability, feasibility and effectiveness of YP Face IT - Marije van Dalen
- #398 Impact Game for Young Daredevils - Interdisciplinary and user-centered development of a digital game-based intervention to promote self-regulation and addiction prevention - Nuri Wieland

#38 Looking ahead with the SIGMA-project: Investigating processes at different timescales to better understand adolescent psychopathological development

**Abstracts:**

- #185 COVID-19-related changes in adolescents' daily-life social interactions and psychopathology symptoms - Robin Achterhof
- #426 Future orientation and anticipatory emotion regulation in adolescence during the Covid-19 pandemic: The role of psychopathology and contextual factors - Anu Hiekkaranta
- #403 Advancing credibility in longitudinal research by implementing open science practices: Examples from the SIGMA study - Olivia Kirtley
- #451 The role of childhood adversity and threat anticipation in the development of psychopathology in adolescence - Isabell Pätzold

#39 Complex youth or Complex care? A multiple perspective study on youth with severe and during mental health problems

**Abstracts:**

- #187 Key features of youth with severe and enduring mental health problems - Chanel Bansema
- #186 Contributing and hindering factors in treatment of youth with severe and enduring mental health problems - Rianne de Soet
- #206 Integrating lived experience of youngsters with mental health problems in the funding and conduct of science - Vivian Hemmelder

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
#40 Arts therapies for children and adolescents with psychosocial problems

Abstracts:

- #401 On stage: drama therapy for children and adolescents with psychosocial problems - Marij Berghs
- #335 Effect and Working Mechanisms of Art Therapy for Children with Psychosocial Problems - Liesbeth Bosgraaf
- #376 Effects of Music Therapy on Reducing Psychosocial Problems in Children/Adolescents - Martina de Witte
- #363 Safe & Sound - music therapy intervention for refugee children - Evelyn Heynen

#41 Crossing borders: Animal-assisted therapy in child psychiatry

Abstracts:

- #297 Pegasus, Equine-Assisted Therapy for therapy-resistant adolescents with autism spectrum disorders, a replicated AB design - Jenny den Boer
- #286 Crossing borders (in multiple ways) - Esther Hiemstra
- #544 KELPIE, a pilot study of animal-assisted intervention in child and adolescent psychiatry to build a therapeutic relationship. - Andrea Schmitz
- #573 Networks of animal-assisted therapy in child and adolescent psychiatry - state of the art - Ingo Spitczok von Brisinski

#42 Opportunities of different types of eHealth for (early)treatment of adolescent depression and other mental health problems of adolescents

Abstracts:

- #369 A Systematic Review on Blended Care in Youth Mental Health - Elisa Boelens
- #380 "Taking action": an e-health early intervention targeting parents, embedded in a school context - Maurane Desmet
- #284 Pragmatic Quasi-Experimental Controlled Trial Evaluating the Outcomes of Blended CBT Compared to Face-to-Face CBT and Treatment as Usual for Adolescents with Depressive Disorders - Yvonne Stikkelbroek
- #211 Appealing to youth with video game based depression prevention - Marlou Poppelaars
#43 Protecting patients from violence in medical institutions - the need for general safeguarding measures

Abstracts:

- #278 Transition from institutional to community system of care: safeguarding issues; the case of Greece - Konstantinos Kotsis
- #309 Children’s experiences of institutional care. Voices, solutions, and solutions. - Carl Göran Svedin
- #430 Sexual violence, assaults and misconduct by healthcare professionals - forms, frequencies, causes and the development of safeguarding measures - Ulrike Hoffmann

#44 Novel technologies to investigate social processes across the lifespan

Abstracts:

- #204 Decoding intentions from movement: an embedded approach of social cognition in neurodevelopmental disorder - Clémence Feller
- #266 Imitation performance and visual exploration in young children with Autism Spectrum Disorder - Kenza Latrèche
- #222 Interpersonal functioning from adolescence to young adulthood: a macro- and micro-level investigation using the TRAILS TRANS-ID study - Larisa Morosan
- #236 Sensitivity to Autism-Related Differences in Visual Kinematics in Observers with and without Clinical Expertise - Novella Pretti

#45 Adolescent depression: contributions of applied phenomenology and qualitative research

Abstracts:

- #242 Facilitating factors and barriers in help-seeking behaviour in adolescents and young adults with depressive symptoms: A qualitative study - Eline Eigenhuis
- #248 Towards a Phenomenologically Grounded Typification of Varieties of Adolescent Depression - H. Andrés Sánchez Guerrero
- #218 qualitative exploration of adolescent depression early-treatment stage - Jordan Sibeoni
- #209 The experience of depression in migration: perspectives of adolescents, their parents and their health professionals - Jonathan LACHAL
#46 The promise of digital phenotyping to provide a better characterization of behavior in children and adolescents with autism spectrum disorders

Abstracts:

- #308 Atypical prosody in young children with ASD relates to motor delay and stereotypies as well as to subsequent speech development - Michel Godel
- #265 Using the Ecological Momentary Assessment to investigate daily-life stress reactivity in youth with autism spectrum disorders - Laura Ilen
- #233 Automated identification of ASD in preschoolers using pose estimation from videos - Nada Kojovic
- #463 AI classification on video data with post-hoc skeletal tracking to identify stereotypic behavior in autism - Christian Lemler

#47 Anorexia nervosa – recent specific treatment trials using various settings in adolescents

Abstracts:

- #503 Day patient treatment and home treatment as alternatives to inpatient treatment - Brigitte Dahmen
- #352 Short-Term Outcome of Inpatient Treatment for Adolescents with Anorexia Nervosa Using DSM-5 Remission Criteria - Andreas Karwautz
- #333 The Maudsley model of anorexia nervosa treatment for adolescents and young adults (MANTRA): A promising new treatment option for anorexia nervosa in adolescents - Andrea Schneider
- #478 The cognitive interpersonal model for adolescents and their carers - Janet Treasure

#48 IMPROVING THE EFFECTIVENESS OF ANTIPSYCHOTIC DRUGS IN CHILDREN WITH NEURODEVELOPMENTAL DISORDERS: ADVERSE EFFECTS AND QUALITY OF LIFE

Abstracts:

- #540 Long-term effectiveness of off-label risperidone in children and adolescents: a randomized, placebo-controlled discontinuation study - P.J. Hoekstra
- #453 Antipsychotics in the treatment of pediatric tic disorders - Peter Nagy
- #337 Molecular mechanisms of metabolic disorders induced by antipsychotics: road to prevention and treatment - Marco Pozzi
- #435 Safety of second generation antipsychotics in developmental psychiatric disorders: what update? - Maria Pia Riccio

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
#50 Mentalizing Group -- Mentalization-based therapy for Adolescents (MBT-A): Recent updates in theory, assessment and treatment

Abstracts:

- #326 Risky Sexual Behaviour and Adolescents and Personality Disorders : Implications for Assessment and Treatment - Karin Ensink
- #329 Why do adolescents with borderline personality disorder drop out of mentalization-based group treatment? – Results from qualitative and quantitative studies - Mie Sedoc Jørgensen
- #230 The assessment of real-time mentalizing in parent-adolescent interactions: implications for MBT-A - Carla Sharp

#51 CAP training during the pandemic

Abstracts:

- #331 Potential effects of Covid-19 on training in CAP: the balance after a year - Peter Deschamps
- #253 Online training during the pandemic - Konstantinos Kotsis
- #593 How building CAP competence for trainees through online format? An exploratory qualitative study. - Marie-Aude PIOT

#52 Preservation of mental health in minors - Determinants and online approaches

Abstracts:

- #332 Lifespan risks of growing up in a family with mental illness or substance abuse - Vera Clemens
- #445 BASE - Building Mental Health Across Lifespan - E-learning to empower Primary Care Providers - Katharina Grau
- #386 Competence Area Mental Health Prevention – Obstacles towards the use of professional help and mobilization of short-term prevention activities within the context of the COVID-19 pandemic - Sophie Hofmann
- #500 We make you STRONG - Online prevention program for children and adolescents from divorced families - Thorsten Sukale
#53 Understanding environmental mediators in the presence of genetic vulnerability for psychopathology, the model of 22q11.2 Deletion Syndrome.

Abstracts:

- #296 Characteristics of individuals with 22q11.2DS who convert to psychotic disorders during a long-term close psychiatric follow-up - Michal Taler
- #261 Differences in daily-life psychopathology dynamics across neurodevelopment disorders, revealed by a novel multi-layer network analysis approach - Corrado Sandini
- #287 Parental Expressed Emotion, Parenting Stress, and Behavioral Problems of Young Children with 22q11.2 Deletion Syndrome and Idiopathic Autism Spectrum Disorder - Yaffa Serur
- #271 Post-traumatic stress in individuals with 22q11.2 deletion syndrome - therese van amelvoort

#54 Novel insights into multifactorial mechanisms affecting mental health in neurodevelopmental disorders: The case of 22q11.2 Deletion Syndrome

Abstracts:

- #268 Characterizing ADHD symptomatology and the effects of methylphenidate treatment in individuals with 22q11.2 deletion syndrome - Caren Latrèche
- #274 The Validation of the Medical Burden Scale in Individuals with 22q11.2 Deletion Syndrome - Michal Taler
- #358 Clinical and cognitive correlates of multivariate patterns of sleep disturbance in 22q11.2 Deletion Syndrome - Natacha Reich
- #273 Involvement of inflammation and blood-brain barrier permeability in cognitive deficits and psychosis in 22q11.2 deletion syndrome - Michal Taler

#55 Transdiagnostic ecological momentary interventions targeting specific constructs aimed at improving youth mental health.

Abstracts:

- #299 The SELFIE-Study: a Novel Self-esteem Ecological Momentary Intervention in Traumatized Youth - Maud Daemen
- #288 A realist evaluation of a transdiagnostic ecological momentary intervention for improving self-esteem (SELFIE) in youth exposed to childhood adversity - Mary Rose Postma
- #439 An ecological momentary compassion-focused intervention for enhancing resilience in help-seeking youths - Anita Schick
- #372 Efficacy of Acceptance and Commitment Therapy in Daily Life (ACT-DL) in Early psychosis: Findings from a Multi-Centre Randomized Controlled Trial - Thomas Vaessen

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
#57 Short- and long-term consequences of the death and illness of a parent or other loved one during childhood

Abstracts:
- #310 Posttraumatic stress symptoms in children confronted with parental cancer: the role of individual and family factors - Liesbeth de Paauw-Telman
- #343 The prevalence of prolonged grief in children and adolescents - Iris van Dijk
- #307 Childhood parental death and the formation and quality of adult romantic relationships - Carline van Heijningen

#58 Mentalizing in systems, organisations and society

Abstracts:
- #323 Mentalizing beyond the monad and dyad - Dickon Bevington
- #417 Mentalizing and non-mentalizing social systems, culture and contexts - Chloe Campbell
- #365 Applying mentalization across the network: AMBIT (Adaptive Mentalization Based Integrative Treatment) - Liz Cracknell
- #424 Ecophenotypes, the digital environment and epistemic trust - Patrick Luyten

#59 Attention in children with autism spectrum disorders

Abstracts:
- #441 Pupillometric measures of locus coeruleus-norepinephrine activity explain altered gaze preferences in preschoolers with autism spectrum disorder - Christine Freitag
- #342 Characterizing Cognitive flexibility in ASD and ADHD children - Fiona Journal
- #357 Neural networks involved in social visual engagement in preschoolers with ASD - Nada Kojovic
- #394 Measuring social orienting in preschoolers with autism spectrum disorder using different types of eye-tracking paradigms - François Robain

#60 Findings from the Milestone Project: A European Study on Transition from Child to Adult Mental Health Care

Abstracts:
- #434 THE IMPORTANCE OF CLINICIANS’ AND PARENTS’ AWARENESS OF SUICIDAL BEHAVIOUR IN ADOLESCENTS REACHING THE UPPER AGE LIMIT OF THEIR MENTAL HEALTH SERVICES IN EUROPE - Giovanni de Girolamo
- #344 Leaving Child and Adolescent Mental Health Services in Europe: Young People’s Mental Health Indicators, Care Pathways and Outcomes - Suzanne Gerritsen
- #458 Miss - Amanda Tuffrey
- #487 Managed Transition to support mental health outcomes at the child and adult mental health service boundary - Helena Tuomainen
#61 European perspectives on the impact of the COVID-19 pandemic on the development and course of eating disorders in youth

Abstracts:

- #486 Increase in admission rates and symptom severity of childhood and adolescent anorexia nervosa in Europe during the COVID-19 pandemic: Data from specialised eating disorder units in different European countries and from a health insurance data set - Beate Herpertz-Dahlmann
- #555 Locked down with my Eating Disorder: a retrospective study on the impact of COVID-19 lockdown on adolescents with ED - Nadia Micali
- #431 Experiences of adolescents with anorexia nervosa and their caregivers on the inpatient and outpatient treatment during COVID-19 confinement - Michael Zeiler

#62 An update on the aetiology, assessment, and clinical characteristics of avoidant and restrictive food intake disorder

Abstracts:

- #600 Evidence informed clinical assessment of individuals with ARFID - Rachel Bryant-Waugh
- #535 Emotional and physiological reactivity to sensory stimuli in young children with avoidant/restrictive eating - Christine Cooper-Vince
- #428 Heritability of the avoidant/restrictive food intake disorder (ARFID) phenotype in 6- to-12-year-old Swedish twins - Lisa Dinkler

#63 New neuro-cognitive precursors for tailored prevention of mood disorders in adolescents

Abstracts:

- #586 Targeting the Nucleus accumbens to prevent depression: evidence from a mouse model - Catherine Belzung
- #602 Predictors of intervention response to personality-targeted school-based prevention of mental health and substance misuse: A machine learning analysis - Patricia Conrod
- #585 Early brain structural correlates associated with or predating depression in early or late adolescence - Marie-Laure Paillère Martinot
- #579 Feasibility and efficacy of a personality-targeted intervention for neglected adolescents in institutional and family care - Florin Tibu
#64 Callous unemotional and other conduct disorder related traits: Underlying neurobiology

Abstracts:

- #411 Brain Response to Threatening Faces in Youths with Conduct Disorder: Effects of Sex and Variation in Callous-Unemotional Traits. - Stephane DE BRITO
- #405 Genetic networks underlying callous-unemotional and aggressive behaviour - Christine Freitag
- #416 Endocrinological stress response is differentially related aggressive behaviour and callous unemotional traits - Christine Freitag
- #450 Testing the Ecophenotype Model: Cortical Structure Alterations in Conduct Disorder With Versus Without Childhood Maltreatment - Marlene Staginnus

#65 Recent developments in the treatment of childhood obsessive-compulsive disorder

Abstracts:

- #569 Brief intensive cognitive behavioral therapy for children and adolescents with OCD: Findings of two international pilot studies - Part 1 - Marjolein Bus
- #584 Wrist Angel: A Wearable AI Feedback Tool for OCD Treatment and Research - Nicole Lønfeldt
- #582 Brief intensive cognitive behavioral therapy for children and adolescents with OCD: Findings of two international pilot studies - Part 2 - Veronika Mailänder Zelger
- #570 Supportive Parenting for Anxious Childhood Emotions (SPACE) for children/adolescents with an obsessive-compulsive disorder. - Chaim Huijser

#66 Moderators and mechanisms of early intervention in Autism Spectrum Disorder

Abstracts:

- #501 Pre-treatment clinical and gene expression patterns predict developmental change in early intervention in autism - Michael Lombardo
- #399 Types of natural re-inforcement in the A-FFIP intervention and their relation to the child’s characteristics - Christine Freitag
- #520 Examining potential predictors of response to Early Start Denver Model (ESDM) in preschoolers with autism spectrum disorders - Marie Schaer
#67 Findings from a pragmatic randomised controlled trial of a video-feedback intervention: Improving outcomes for young children

Abstracts:

- #467 Exploring the use of play-based methods to integrate children’s own perspectives into investigations of child development - Beth Barker
- #444 Preventing enduring behaviour problems in at-risk children aged 12-36 months using a video-feedback parenting intervention - Paul Ramchandani
- #415 Mother-child pretend play: links to maternal mental health and child behaviour - Zhen Rao

#68 Psychological distress and psychosocial care of unaccompanied refugee minors: The impact of trauma, flight and daily stressors on the mental health of young refugees and the quality of life and transcultural competencies of professionals 6 years after the great wave of refugees in Europe.

Abstracts:

- #410 Professional quality of life of social workers working with traumatised young unaccompanied refugees in youth welfare institutions in Germany - Jenny Eglinsky
- #408 Transcultural competencies of professionals working with migrant children and adolescents - Maike Garbade
- #443 The Impact of Daily Hardships and Trauma on the Mental Health of Unaccompanied Refugee Minors detained in Libya - Elisa Pfeiffer
- #406 Pre-displacement and post-displacement factors associated with the mental health of unaccompanied refugee minors 6 years after the great wave of refugees in Europe - Cedric Sachser

#69 Female adolescent conduct disorder: Neurobiological findings and their relation to intervention outcome.

Abstracts:

- #481 Psychophysiological correlates of antisocial behavior in girls - Helena Oldenhof
- #564 Predicting follow-up outcome of the CBT-skillstraining START NOW for female adolescents with conduct disorder and oppositional defiant disorder - Christina Stadler
- #583 Linking heart rate variability emotion regulation and brain structure in adolescents with and without conduct disorder - Antonia Tkalcec
- #49 Using wearables to study psychophysiological activity in relation to child aggressive behavior; a feasibility study in a clinical setting. - Fleur Velders
#70 Diagnostics and treatment of Children and Adolescents with Trauma Related Disorders

Abstracts:

- #418 Distinct epigenetic profiles in relation to treatment outcome in youth with Posttraumatic Stress Disorder - Judith Ensink
- #413 Before we start treatment: trauma screening and -diagnostics - Lieke Kooij
- #438 Executive functioning as a predictor of treatment completion and responsiveness in children and adolescents with PTSD - Rosanne op den Kelder
- #429 Toddlers and preschoolers with trauma and attachment related symptoms - Frederike Scheper

#71 The microbiome-gut-brain axis in Anorexia nervosa

Abstracts:

- #559 Gut microbiota and Anorexia Nervosa. A systematic review and quantitative synthesis of pooled microbiological data - Laura Di Lodovico
- #460 Gut-brain axis in child psychiatry - aetiology, probiotics treatment, and well-being - Andreas Karwautz
- #449 GUT MICROBIOME ALTERATIONS IN ANOREXIA NERVOSA DO NOT NORMALIZE AFTER SHORT-TERM WEIGHT RESTORATION - Jochen Seitz
- #587 CHANGES IN THE GUT MICROBIOME IN AN ANIMAL MODEL OF ANOREXIA NERVOSA - Stefanie Trinh

#72 Autism Spectrum Disorder in Young Children: from concerns to effective intervention approaches in a Dutch clinical setting

Abstracts:

- #488 From diagnosis to intervention of ASD – Pivotal Response Treatment as effective intervention approach for young children with ASD and their parents - Manon de Korte
- #507 From detection to diagnosis of ASD – The importance of observing early parent-child interactions - Mirjam Pijl
- #482 From concerns to early detection of ASD – barriers and tailored improvement strategies - Michelle Snijder
# 76 Competencies in self-regulation in high risk cohorts of adolescents

Abstracts:

- #526 Polyvictimization moderates stress neurobiology and contributes to anxiety in high-risk adolescents - Aysenil Belger
- #527 Interference control and related brain activity in healthy children at familial high-risk of schizophrenia or bipolar disorder - Line Johnsen
- #523 Clinical and neural characteristics of emotion regulation and stress response in adolescents from the general population - Camille Piguet
- #532 Is structural connectome change over time related to self-regulation in adolescent offspring at familial high risk for severe mental illness? - Simon Poortman
PRELIMINARY LIST OF ACCEPTED SYMPOSIA COMPOSED BY THE ESCAP PROGRAMME COMMITTEE (ORAL PRESENTATIONS)

*Mentioned by session number + title, and abstract number + title.*

# COVID-19 Session 1

Abstracts:

- #2 Video Consulting within Child and Adolescent Mental Health Services in Wales throughout the COVID-19 pandemic - Alka Ahuja
- #414 Covid-19 pandemic and emergency visits for psychiatric reason among children and adolescents: trend of suicidal attempts in the Northwest of Italy. - Chiara Davico
- #150 Pre-pandemic emotion regulation as a protective factor for adolescent mental health problems during the COVID-19 pandemic - Jessica Maruyama
- #52 Longitudinal impact of psychosocial status on children’s mental health in the context of COVID-19 pandemic restrictions - Flore Moulin
- #393 Suicidality and CoVid-19 in child and adolescent psychiatry - Paul Plener
- #201 Differences in mental health problems before and during the COVID-19 pandemic in Dutch children and adolescents referred to youth care - Jacintha Tieskens
- #231 Mental health problems during the COVID-19 pandemic in Dutch children and adolescents with and without pre-existing mental health problems - Josjan Zijlmans

# COVID-19 Session 2

Abstracts:

- #412 Exploring the impact of the second pandemic-related lockdown on preschool children in Greece: The VYronas Kids (VYKI) Study - Konstantina Magklara
- #134 Adolescent mental health before and during the COVID-19 pandemics: The 2004 Pelotas Birth Cohort - Alicia Matijasevich
- #324 Impact of COVID-19 pandemic on internet gaming disorder among children and adolescents: what can we tell so far? - Luis Paulino Ferreira
- #114 Happier During Lockdown: A descriptive analysis of self-reported wellbeing in 17,000 UK school students during Covid-19 lockdown - Emma Soneson
- #364 Internalizing Problems Before and During the COVID-19 Pandemic in Dutch Children and Adolescents from the General Population - Hedy van Oers
- #480 Impact of the COVID-19 pandemic on mental health and digital media use of patients referred to child and adolescent psychiatry. Results of surveys among children, adolescents and their parents in Switzerland - Anna Maria Werling
# New combined session 1

**Abstracts:**

- #36 Training approaches for professionals on the German national clinical guideline for NSSI in adolescents - Elisa Koenig
- #108 Health professionals’ perspectives on capacities, training and networking in child protection - Anna Maier
- #303 A national expert network supporting local networks with focus on enhancing timely detection and early intervention of autism spectrum disorder: it’s development and impact in the Netherlands - Iris Servatius-Oosterling
- #495 Mental health professionals’ family-focused practice: a snapshot of the situation in Quebec, Canada - Genevieve Piche

# New combined session 2

**Abstracts:**

- #61 The development of a regional out-patient system following clinical epidemiology - Luzerner Psychiatrieplanung - Oliver Bilke-Hentsch
- #571 Child and adolescent psychiatry in the Netherlands: patterns of change over the last 25 years - Frits Boer
- #121 A qualitative evidence synthesis of school staff perspectives of youth mental health - Maeve Dwan O'Reilly

# New combined session 3

**Abstracts:**

- #31 Personality Risk Profiles and Adolescent Alcohol, Cannabis and Tobacco Use – a Panel Network Approach - René Freichel
- #1 Mapping the UASC’s psychosocial needs and difficulties, and provision of MHPSS services in Greece - Ioanna Giannopoulou
- #8 Risk of onset and persistence of psychiatric conditions in children and young people with long-term physical health conditions: Longitudinal evidence from the British Child and Adolescent Mental Health Surveys - Laura Panagi
- #6 Psychotropic Drug Use Following a Terror Attack: An Interrupted Time Series Analysis Using Data from the French National Health Insurance Information System - Alexis Revet
# New combined session 4

Abstracts:

- #479 Adolescents’ attachment to parents and peers and social media problematic use - Ahlem Belhadj
- #128 GNTH-initiatives for smoke-free hospitals - the FTGS-approach in Switzerland - Oliver Bilke
- #347 A network analysis on psychopathological symptoms and quality of life variables in overweight and underweight adolescents - Michael Zeiler
- #375 Social Media: The Youth’s Perspective on Social Media Addiction, Coping Mechanisms and Other Challenges - Amélie Galladé

# New combined session 5

Abstracts:

- #163 Genome-wide gene-environment interplay on child subcortical brain structures and psychopathology risk - Koen Bolhuis
- #371 Genetic overlap between somatic diseases and psychiatric disorders - Janita Bralten
- #465 Could the stereotypes level be used to differentiate the clinical manifestation of autism: Ankara University Autism Biobank Preliminary Data - Merve Cikili-Uytun
- #382 Impact of ADHD polygenic risk on childhood growth - Manuela Kouakou

# New combined session 6

Abstracts:

- #213 A prospective cohort study on the intergenerational transmission of childhood adversity and subsequent risk of psychotic experiences in adolescence - Koen Bolhuis
- #262 The poly-environmental risk score and psychotic experiences in adolescents at risk of psychopathology: the iBerry Study - Diandra Bouter
- #260 Stress and the City: the association between urban characteristics and psychotic experiences in adolescents at risk of psychopathology - Diandra Bouter
- #508 Suicide risk in adolescents at Ultra-High Risk (UHR) of psychosis - Elena Monducci

# New combined session 7

Abstracts:

- #65 A Comprehensive Research on the Predictors of Psychosocial Problems in Siblings of Children with ASD - Gökçen İlcióğlu Ekici
- #293 PREVENTION OF CHILD MENTAL HEALTH PROBLEMS IN LOW AND MIDDLE-INCOME COUNTRIES IN SOUTHEAST EUROPE DURING COVID-19 PANDEMIC - Marija Raleva
- #13 POVERTY: THE RISK TO CHILDREN’S MENTAL HEALTH - steven walker

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
# New combined session 8

Abstracts:

- #298 Non-inferiority of ultra-brief, IPT-A based, crisis intervention for suicidal children and adolescents - Anat Brunstein Klomek
- #25 Acompanya’m a novel multimodal intervention plan - Imma Insa Pineda
- #145 Who is @ease? Visitors’ data and working method of professionally supported peer-to-peer youth walk-in centres, anonymous and free of charge - Sophie Leijdesdorff

# New combined session 9

Abstracts:

- #338 Families with violence exposure and the intergenerational transmission of somatization - Jennifer Glaus
- #255 Parental reports on corporal punishment attitudes and norms, and on child dysfunctioning: is there a connection? Reports by parents in a nationally representative sample - Roberto Grujcic
- #22 Prolonged exposure to violence: The effect of Post-Traumatic Stress symptoms and Sleep problems on Suicidal Thoughts and Behaviors among college students - Sami Hamdan
- #312 Risk and protective factors for sexual exploitation in youth and the role of gender: a systematic review - Gabrielle Mercera

# New combined session 10

Abstracts:

- #348 So many countries, so many customs: A register-based analysis of conduct disorder prevalence and treatment patterns in five Western countries - Christian Bachmann
- #360 How does parents’ perception of an adolescent mental health problem predict their intentions towards seeking help? - Daráine Murphy
- #48 Regional distributions of psychiatrically disordered youth in a segregated German town – A trend study - Olaf Reis

# New combined session 11

Abstracts:

- #366 Paternal perinatal stress is associated with children’s emotional problems - Olli Kiviruusu
- #73 A LONGITUDINAL STUDY OF MATERNAL PERINATAL BONDING AND PSYCHOSOCIAL FACTORS THAT CONTRIBUTE TO SOCIAL-EMOTIONAL DEVELOPMENT - Erja Rusanen

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
# New combined session 12

Abstracts:

- #39 Adverse Childhood Experiences and Grandiose Narcissism – Findings from a Population-Representative Sample - Marc Allroggen
- #459 Adolescents at risk for ICD-11 defined personality disorder: Investigating risk markers for early intervention in a community sample of Lithuanian adolescents - Rasa Barkauskiené
- #272 Personality functioning in adolescence and parallels with ICD-11: the role of subjective peer and family relationship quality - Gabriele Skabeikyte-Norkiene

# New combined session 13

Abstracts:

- #219 Longitudinal Neuroimaging Analysis of the Limbic Lobe Network in ADHD - Michael CONNAUGHTON
- #277 Transdiagnostic Neural Signatures in common Pediatric Psychiatric Disorders: a data-driven meta-analysis of functional neuroimaging studies - Jules Dugré
- #40 Subcortical brain maturation predicts healthy adolescents' externalizing symptomatology - Irina Jarvers
- #90 Longitudinal effects of antidepressant treatment on resting-state functional connectivity in adolescents with major depressive disorder - Jae-Won Kim
- #254 A longitudinal MRI study of the connectome in adolescent offspring at familial high risk for bipolar disorder or schizophrenia - Simon Poortman

# New combined session 14

Abstracts:

- #44 Establishing effective working relationships between youth peer specialists and clinicians in child and adolescent mental health services - Carolijn de Beer
- #111 Career pathways for child and adolescent psychiatrists - A national trainee led recruitment project - Anna Sofie Hansen
- #305 Attitudes towards patients with mental health disorders among child psychiatrists across Europe - Dorottya Ori
- #74 QUALITY IMPROVEMENT APPROACH OF CLINICAL HANDOVER IN THE LIAISON PSYCHIATRY DEPARTMENT IN CHI-CRUMLIN. - Engy Shehata
# New combined session 15

Abstracts:

- #250 A mindfulness program for children with ADHD: effect on nuclear symptoms, executive functions and cortisol levels. - Anna Huguet
- #470 Diagnostics and Treatment of Selective Mutism - Chaya Rodrigues Pereira
- #368 The benefits of mobility in dealing with hikikomori adolescents and their families - Andrea Gragnani
- #50 Narrative Family Therapy may help families with complex psychiatric problems - Nina Jørring

# New combined session 16

Abstracts:

- #353 Early childcare and child development at age 3.5 years in France, data from the ELFE mother-child cohort. - Ramchandar GOMAJEE
- #440 Diagnostic Overshadowing and Co-Morbidities: The Challenge of Developmental, Behavioral, Emotional and Mental Health (DBEM) Disorders in Early Childhood - Mary Leppert
- #423 Modifying role of mother’s depression and stress in the association between child’s program viewing and psychiatric symptoms at five years. - Janette Niiranen
- #58 Developmental psychopathology in a community sample of children and adolescents: Associations with irritability and functional impairment - Jala Rizeq

# New combined session 17

Abstracts:

- #267 Comparison of antipsychotic drug use among Dutch Youth before and after implementation of the Youth Act (2010-2019). - Youssra Bais
- #67 Effects of burnout symptoms on the institutional consequences. A study among professionals at psychiatric clinics and departments for children and adolescents. - Sarah Haehnle
- #110 The effect of the Development and Well-Being Assessment as an adjunct to standard referral letters on referral decisions by Child and Adolescent Mental Health Services - Anna Sofie Hansen
- #60 Gender-Specific Child and Adolescent Mental Health Care - Lena Herrmann
- #23 Evaluation of an online-course for professionals on supporting transition of young people with mental illness from adolescence to adulthood (ProTransition) - Elisa Koenig
- #517 The use of DAWBA algorithm diagnoses in psychiatric assessment in child and adolescent psychiatry - Marlene Briciet Lauritsen
- #144 Mandatory check for COPMI in adult mental healthcare services in the Netherlands – a quantitative and qualitative evaluation - Sophie Leijdesdorff

# New combined session 18

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
Abstracts:

- #421 Precision dosing of aripiprazole in children and adolescents: linking blood levels to weight gain and effectiveness - Rebecca Hermans
- #7 Monitoring of adverse drug reaction-related parameters in children and adolescents treated with antipsychotic drugs in psychiatric outpatient clinics - Rob Heerdink
- #107 Psychiatric adverse events during antipsychotic treatment in naif children and adolescents - Susanne Thümmler

# New combined session 19

Abstracts:

- #388 Serious adverse drug reactions in children and adolescents during (off-label) antidepressant and antipsychotic pharmacotherapy - Karin Egberts
- #45 Relapse prevention strategies in adolescents and young adults remitted from depression and anxiety - Suzanne Robberegt
- #70 Modalities of pediatric appropriate PR melatonin (PedPRM) prescription in children with ASD and insomnia - a case studies - Carmen M. Schroder

# New combined session 20

Abstracts:

- #9 Adult and Child and Adolescent Psychiatrists' Experiences of Transition in Anorexia Nervosa: A Qualitative Study - Alexis Revet
- #442 Family Based Treatment in a tertiary treatment center for eating disorders: not for everybody - Christien Schilder
- #521 But traumatised? A catamnestic study of formerly eating disordered patients - Ulrike M.E. Schulze

# New combined session 21

Abstracts:

- #455 Decentralisation and community based mental healthcare across Europe - Rebecca Hermans
- #315 Using technology to provide infant mental health education and consultation - Joyce Harrison
- #51 Family perspectives on effective factors in Narrative Family Therapy - Nina Jørring
PRELIMINARY LIST OF ACCEPTED WORKSHOPS
Mentioned by session number + title, and abstract number + title.

- #205 Autism Spectrum Condition in adolescent natal females - Myooran Canagaratnam
- #210 Workshop on Experience Sampling Methods - Fleur Helmink
- #214 Integrating CAP and adult psychiatry in training: taking care of the children together - Peter Deschamps
- #229 ESCAP YOUTH DIALOGUE - WORKSHOP - let’s listen to each other & act wisely! - Matthias Köster
- #232 Evidence-based trauma treatment for young people: Doing what works!’ - Marlies van Dijk
- #392 Lighthouse MBT-Parenting Programme for reducing risk of maltreatment - Gerry Byrne
- #396 Joint training across Paediatrics and CAP to meet the needs of children and young people presenting to hospital with mental health and care crises - Katya Certic

This preliminary list has been compiled with care. However, typing or compilation errors may still occur. The organization reserves the right to make changes in the composition of sessions and the manner of presentation (e.g. oral, poster, etc.).
